- 7. No. of Staff Members: Teaching -32, Non-Teaching- 12**
- 8. Website: www.mgmmtn.edu.in**
- 9. Email id: principalconabad@gmail.com**
- 10. Contact No.: 9607994600, 0240-6601278, 240-6601100**

11. About Our Institution(800-1000 Words)

MGM Mother Teresa College of Nursing: A Legacy of Excellence in Nursing Education

*Established in 2007, MGM Mother Teresa College of Nursing, Chhatrapati Sambhajanagar, has steadily grown as a premier institute committed to excellence in nursing education. Initially started with an intake of 30 students, the college has consistently expanded its horizons, increasing its capacity to 50 students in 2012 and subsequently to 100 students in 2022, reflecting the growing demand for quality nursing education in the region.

The introduction of the Post Basic BSc Nursing program in 2012 with a capacity of 40 seats marked another milestone, catering to the aspirations of diploma-holding nurses seeking professional advancement. Furthermore, in 2019, the college expanded its academic offerings by launching the MSc Nursing program in all specialties, strengthening its position as a center

of advanced nursing education and research. Adding to this, in 2024, the college took another leap forward by becoming a PhD Nursing study center, paving the way for innovative research and development in the nursing field.

Our institution provides an enriching learning environment with all courses approved by the Indian Nursing Council (INC), Maharashtra Nursing Council (MNC) and affiliated to Maharashtra University of Health Sciences (MUHS), Nashik.

Students benefit immensely from clinical experience at an affiliated super-specialty hospital*, which offers exposure to diverse cases and hands-on learning in a real-world healthcare setting. This distinctive feature enables them to bridge the gap between theoretical knowledge and practical application effectively.

Over the years, MGM Mother Teresa College of Nursing has attracted students from across Marathwada, Vidarbha, and other parts of Maharashtra, including those from remote and underserved areas. Our commitment to nurturing talent has empowered our students to excel, with alumni now contributing significantly to healthcare systems in India and abroad.

As we continue to uphold the vision of providing holistic nursing education, our institution remains dedicated to producing compassionate, skilled, and competent nursing professionals who embody the spirit of service and excellence.

12. Achievements: (800-1000 Words)

- Organized Guest lecture on How to write research article by sudhasheel ghosh.

3. **University of limerick (Limerick Ireland)** to facilitate the collaboration between the institution and articulate the intension to develop specific modules of cooperation between the institution.

13. Future Plans:(500 Words)

- MGM Mother Teresa College of Nursing is committed to its vision of nurturing competent and compassionate nursing professionals while contributing significantly to the advancement of nursing education and healthcare services. With this goal in mind, the institution has outlined a roadmap for its future endeavors, focusing on research, academics, faculty development, and the holistic growth of its students.

- Enhancing Research Collaborations

The college recognizes the importance of research in driving innovation in healthcare. We plan to establish and strengthen collaborations with national and international institutions, hospitals, and research organizations. These partnerships will facilitate multidisciplinary research addressing pressing healthcare challenges. Our faculty and students will have opportunities to work on impactful studies, publish in reputed journals, and contribute to evidence-based nursing practices.

- Strengthening Functional MOUs

Establishing functional Memoranda of Understanding (MOUs) with leading healthcare institutions and universities is a key priority. These agreements will create avenues for clinical exposure, faculty and student exchanges, and joint research projects. Collaborations will also enhance access to advanced technologies, diverse patient populations, and specialized nursing care practices.

- Development of New Academic Programs

In response to the evolving demands of the healthcare sector, the college aims to introduce specialized programs, including certificate and diploma courses in areas like critical care, geriatric nursing, and community health. Advanced courses, such as post-master's fellowships and bridge programs, are also planned to help students gain expertise in niche areas of nursing practice.

- Promoting Funded Research Projects

To support innovative and impactful research, the institution will actively seek funding from government bodies, private organizations, and international agencies. These grants will enable the college to undertake projects focusing on improving healthcare outcomes, addressing rural health disparities, and developing community-based interventions.

- Faculty Development Initiatives

Recognizing that faculty are pivotal to the institution's success, the college will organize regular training programs, workshops, and seminars to enhance their teaching and research capabilities. Faculty members will be encouraged to pursue higher education, certifications, and international fellowships. Participation in conferences and academic exchanges will also be promoted to keep them abreast of global trends in nursing education.

- Organizing Conferences and Workshops

The institution plans to host annual conferences, seminars, and workshops on contemporary topics in nursing practice and research. These events will serve as a platform for knowledge sharing, networking, and professional growth. Participation from national and international experts will further enrich the academic environment of the college.

- Holistic Development of Students

The college remains dedicated to the overall development of its students. Plans include mentorship programs, leadership training, career counseling, and opportunities for participation in extracurricular activities. Workshops focusing on communication skills, critical thinking, and ethical practices will prepare students to excel in diverse healthcare settings.

- Infrastructure and Technology Integration

Investments in advanced infrastructure, such as simulation labs, digital libraries, and smart classrooms, will continue. Technology-driven teaching methods, including virtual learning platforms, will be integrated to enhance the learning experience.

Achieving Excellence through Accreditation

To maintain and enhance quality, the college will pursue higher levels of accreditation and adhere to global benchmarks in education and healthcare. Continuous quality assessments will ensure sustained growth and recognition as a center of excellence.

By implementing these plans, MGM Mother Teresa College of Nursing aims to establish itself as a leader in nursing education and research, contributing significantly to healthcare advancements at the local, national, and global levels.
